Int Lag s

We are believers in the power of whole plant extracts and the benefits they provide when working together to support human and animal endocannabinoid systems. Our oils and hemp supplements contain the widest array of cannabinoids, flavonoids, terpenes and other beneficial molecules found in this magical plant.

Our full spectrum hemp oil is extracted using CO2 which is a natural way to extract cannabinoids from plant material. We do not use any post processing solvents to remove plant waxes or fats, known as Winterization (like most companies do). We keep our oil in its natural state to bring our customers the highest quality full spectrum CBD oil on planet earth.

#### Health & Safety

We also offer a handful of thc-free products for those customers requiring 0% THC.

For inquiries and wholesale orders please email sales@bestlifehempproducts.com

Our customers health and safety is our top priority which is why all of our products go through third-party laboratory testing to ensure they meet our high quality standards. Our full spectrum hemp extract is free from any heavy metals, pesticides, molds and microbials. We use organic, vegan and non-GMO ingredients whenever possible. You can visit our product pages to view our lab reports at any time.
